

In Dankbarkeit und Freundschaft
Charlotten Büblers

16. Juni 1964.

Often when reading your books I have
wondered what sort of a person you are -
Meeting you was an "Erebnis" - You are
so full of life and "Wesentlichkeit" -
Lead us on to become not just
"Techniker" but Healers -
I love you with the deepest
feeling of a brother

In grateful appreciation for your kindness
in receiving me today and even more for the
contribution to our common life of your
mind and heart. So happy to know that
we have Dr. Leopold H. as a friend in
common.

I hope to present you to Eden Seminary
one day!
